EDUCATION

The University of Texas at Dallas, TX

Bachelor of Science, Computer Science

Dean's List Recipient, Fall 2024

Relevant Coursework: Data Structures & Algorithms, Probability & Statistics, Systems Programming in UNIX

Expected May 2028

GPA: 3.93

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++, JavaScript, HTML, CSS, OOPs

Data & ML: Pandas, NumPy, Matplotlib, Scikit-learn, Tableau, Power BI, Advanced Excel, Jupyter Notebook, Statistical Analysis, Data Visualization

AI & Automation: n8n, LLMs, Prompt Engineering, AI Agents, Google Gemini, Mistral, Hugging Face, REST APIs

Tools & Platforms: Git, Docker, Flask, React, MongoDB, Supabase, UNIX, Google APIs

PROJECTS

Multi-Agent AI Market Intelligence System

June 2026

n8n | Google Gemini | Mistral | Hugging Face FLUX.1 | HTML/CSS/JS | Docker | Google Drive API

- Designed a 4-agent AI system automating full market research for Wayfair's Rugs team — competitor intelligence, trend discovery, moodboard generation, and dashboard creation
- Optimized workflows to generate complete market intelligence reports in under 15 minutes, replacing hours of manual research

Post-Meeting Email Automation Engine

May 2026

n8n | Gmail API | Discord API | LLM Integration

- Built an 8-step n8n automation pipeline that ingests networking meeting notes via structured forms and generates personalized AI follow-up emails
- Implemented a human-in-the-loop Discord approval system for review and regeneration before automated Gmail delivery, reducing manual follow-up drafting time to near zero

CourseIQ – AI Academic Co-Pilot

March 2026

Supabase | Claude AI | Lovable

- Built an AI academic planner converting syllabi into study plans with deadline tracking and daily AI recommendations; placed 3rd out of 150+ participants at UTD's Product Pitch Challenge

MoodMate – AI Mood Journal

July 2025

Python | Flask | Pandas | Matplotlib | LLM API

- Developed a web app with a full data pipeline: mood logging, storage, trend visualization, and AI-generated emotional summaries via LLM integration

PROFESSIONAL EXPERIENCE

Extern

AI Extern, Wayfair

May 2026 – June 2026

- Architected a 4-agent AI market intelligence system in n8n, automating data collection across 7+ sources (Amazon, Wayfair, Walmart, Instagram, Pinterest, blogs) — cutting manual research from several hours to under 15 minutes
- Engineered end-to-end LLM workflows integrating Google Gemini, Mistral, and Hugging Face FLUX.1, delivering a 6-section interactive HTML executive dashboard with automated Google Drive delivery
- Surfaced actionable insights including pricing gaps, whitespace opportunities, and competitor intelligence directly to Wayfair's Rugs category team.

The University of Texas at Dallas

Jonsson Ambassador

February 2025 – Present

- Solely manage the official Jonsson Ambassadors Instagram — creating and designing all content across 29 posts generating 20,000+ total views through recruitment content, major comparison series, and ambassador spotlights.
- Spearhead multichannel recruitment campaigns across Instagram, mass email outreach, and poster design across 15+ events to drive prospective student engagement at scale.
- Conduct campus tours and one-on-one consultations engaging 100+ prospective students and families with program and curriculum-level insights.

CERTIFICATIONS

- SQL for Data Analysis – LinkedIn Learning (2026)
- Data Analytics Job Simulation – Deloitte Australia (Forage, 2026)
- Python for Data Science, AI & Development – IBM (Coursera, 2025)
- MongoDB Vector Search – MongoDB (2025)
